

I'm getting my WINGS at the

SMYRNA

WINGS WEEKEND!

September 6, 2003!

SMYRNA AIRPORT'S NEW TERMINAL BUILDING

Located on the new west ramp at the airport.

Driving directions: From I-24 exit at Sam Ridley Blvd. towards the Smyrna airport, after crossing Murfreesboro Rd., turn left on Threet Industrial Blvd. and then turn right on Doug Warpoole Rd., look for the new Terminal Bldg. on the right.

EARN YOUR WINGS IN *JUST ONE DAY!*

Join us for a "WINGS WEEKEND" where a volunteer flight instructor will be assigned to each pilot for three *free* hours of refresher flight training - one hour each of landings, airwork and instrument work. Also, pilots will attend one of several Safety Seminars to complete the Wings Program requirements. Wings pins and certificates will be awarded on the spot!

Remember that completion of any phase of the Wings Program now also counts as a Biennial Flight Review!

We will start the day with free coffee and doughnuts and then have a full slate of Safety Seminars running all day long, and of course lots of flying with our volunteer flight instructors! **FREE** lunch begins at 1130. The flying begins at 0800, but volunteer flight instructors must attend a briefing at 0730 at the terminal building. The first twenty pilots to arrive are eligible for a free simulator flight courtesy of Howell Enterprises.

You are urged to pre-register as early as possible, as this will help us in planning. The sooner you send your form in, the better your chances are of being assigned an instructor, and, if need be, an airplane! (Pilots renting aircraft at the field are responsible for their own financial arrangements with the operator.) Please help us plan the best possible event for you by letting us know you're coming!
